CONTENTS

Volume 63 (1989)

PHYSIOLOGY AND BIOCHEMISTRY

Oxyfluorfen binds to and inhibits photochemistry of photosytem II
by D. Sharma, R. Bhardwaj, V. Maheshwari and S. Nagar (Indore, India) 1–6

The effect of submergence on germination and some aspects of the respiratory metabolism of *Cucumis sativus* L. seeds
by A.C. Rabie, J.G.C. Small and F.C. Botha (Bloemfontein, South Africa) 7–13

Regulation of urease activity of *Cladina dendroides* and its photobiont by lichen phenols
by M.E. Legaz and C. Vicente (Madrid, Spain) 15–24

Control of carbon partitioning by light quality mediated by phytochrome
by D. Keiller and H. Smith (Leicester, U.K.) 25–29

Subcellular location of basic and acidic soluble isoperoxidases in lupinus
by A.R. Barcelo, R. Muñoz and F. Sabater (Murcia, Spain) 31–38

Inhibition of net synthesis of ribonuclease by polyamines in potato tuber slices
by M.C. Isola and L. Franzoni (Cordoba, Argentina) 39–45

GENETICS AND MOLECULAR BIOLOGY

Utilization of luciferase fusion genes to monitor differential regulation of phytohemagglutinin and phaseolin promoters in transgenic tobacco
by C.D. Riggs, D.C. Hunt, J. Lin and M.J. Chrispeels (San Diego, CA) 47–57

Transcriptional activity and DNA supercoiling during early germination in maize
by L. Stoilov, V. Mirkova and J. Zlatanova (Sofia, Bulgaria) 59–66

Complementation between protoplasts treated with either of two metabolic inhibitors results in somatic-hybrid plants
by U.F. Böttcher, D. Aviv and E. Galun (Rehovot, Israel) 67–77

CELL AND TISSUE STUDIES IN VITRO

A rapid and efficient transformation method for the production of large numbers of transgenic potato plants
by H. Wenzler, G. Mignery, G. May and W. Park (College Station, TX) 79–85

Plant regeneration from callus protoplasts of *Onobrychis viciifolia* Scop. (Sainfoin)
by F. Pupilli, F. Damiani, M. Pezzotti and S. Arcioni (Perugia, Italy) 87–94

Plantlet development from immature zygotic embryos of hybrid larch through somatic embryogenesis
by K. Klimaszewska (Chalk River, Canada) 95–103

Protein synthesis in endosperm cell cultures of maize (*Zea mays* L.)
by L.A. Lyznik and C.Y. Tsai (West Lafayette, IN) 105–114

Book Reviews 115–117

Corrigenda and Errata 119–120

PHYSIOLOGY AND BIOCHEMISTRY

Biological function of bean pathognesis-related (PR 3 and PR 4) proteins
by A. Awade, M. de Tapia, L. Didierjean and B. Burkard (Strasbourg, France) 121–130

Localization of pathognesis-related proteins in infected and non-infected leaves of Samsun NN tobacco during the hypersensitive reaction to tobacco mosaic virus
by L.C. van Loon and Y.A.M. Gerritsen (Wageningen, The Netherlands) 131–140
Protease activity and pathogenesis-related proteins in virus-infected Samsun NN tobacco leaves
by L.C. van Loon and Y.A.M. Gerritsen (Wageningen, The Netherlands) 141–150
Developmental expression of lipoxygenases in soybeans
by M. Altschuler, W. S. Grayburn, G.B. Collins and D.F. Hildebrand (Lexington, KY) 151–158
Inositol phosphates in the growth cycle of suspension cultured plant cells
by S. Heim and K.G. Wagner (Braunschweig, F.R.G.) 159–165

CELL AND TISSUE STUDIES IN VITRO

Plant regeneration from suspension cultures and protoplasts of *Lolium perenne* L.
by J. Creemers-Molenaar, P. van der Valk, J.P.M. Loeffen and M.A.C.M. Zaal (Oosterhout and Wageningen, The Netherlands) 167–176
Differential amplification of five selected genes in callus cultures of two shrubby *Oxalis* species
by A.S. Escandón, H.E. Hopp and G. Hahne (Buenos Aires, Argentina and Strasbourg, France) .. 177–185
Plant regeneration from protoplast derived calli in rice (*Oryza sativa* L.) using Dicamba
by B. Jenes and J. Pauk (Szeged, Hungary) 187–198
In vitro production of cloned plants of jojoba (*Simmondsia chinensis* (Link) Schneider) through shoot proliferation in long-term culture
by H.C. Chaturvedi and M. Sharma (Lucknow, India) 199–207
Plantlet regeneration from protoplasts isolated from mesophyll cells of Adsuki bean (*Phaseolus angularis*, Wight)
by K. Ge, Y. Wang, X. Yuan, P. Huang, J. Yang, Z. Nie, D. Testa and N. Lee (Shanghai, China and New Brunswick, NJ) 209–216
Activation of nuclear DNA replication and mitosis in excised cotyledons of *Capsicum annuum*
by M. De Donato, E. Perucco, P. Chiavazza and E. Panei (Turin, Italy) 217–225

GENERAL

Selection and characterization of a herbicide-tolerant cell line of tobacco (*Nicotinia tabacum* L.)
by Y. Ishida, T. Hiyoshi, M. Sano and T. Kumashiro (Iwata and Yokohoma, Japan) 227–235
Agroinfection of wheat: inoculation of in vitro grown seedlings and embryos
by P.J. Dale, M.S. Marks, M.M. Brown, C.J. Woolston, H.V. Gunn, P.M. Mullineaux, D.M. Lewis, J.M. Kemp, D.F. Chen, D.M. Gilmour and R.B. Flavell (Cambridge and Norwich, U.K.) 237–245
Agroinfection of wheat: a comparison of *Agrobacterium* strains
by M.S. Marks, J.M. Kemp, C.J. Woolston and P.J. Dale (Cambridge and Norwich, U.K.) 247–256
Subject Index Volume 63 257–259
Author Index Volume 63 261–262
Contents Volume 63 263–264
